

SURIYA PRAKASH K

ECE Undergraduate | Aspiring Software Engineer | Python & DSA Enthusiast

+91 6374673797 | suryx12@gmail.com | <https://linkedin.com/in/suriyapraakash-k> | <https://github.com/suryx12-a> | <https://leetcode.com/u/suriya567/>

PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with a strong interest in Software Engineering and Product Development. Skilled in Python, C, Data Structures & Algorithms, and problem-solving with hands-on experience through Embedded Systems and IoT projects. Passionate about building scalable software applications and continuously improving programming skills through coding practice and real-world projects.

EDUCATION

SNS College of Engineering	2023 – Present
B.E, Electronics and Communication Engineering CGPA: 7.49	
Ramakrishna Mission Vidyalaya Matric Hr Sce School	2021 – 2023
HSC Percentage: 71%	

SKILLS

Programming Languages: C, Python

Web Technologies: HTML, CSS

Databases: MySQL

Tools & Platforms: GitHub, Git, VS Code, Canva

Soft Skills: Active Listening, Quick Learning, Adaptability, Leadership, Problem Solving

EXPERIENCE

Web Development Intern Let's GameTech, Coimbatore	Aug 2024
- Learned HTML and website development by building responsive web pages and understanding web development fundamentals. - Developed and enhanced website features while collaborating with mentors to improve functionality and user experience.	
Embedded Systems Intern Techvolt Software, Coimbatore	Jun 2025
- Developed embedded applications using C programming and worked with microcontrollers, sensors, and communication protocols. - Performed debugging, testing, and hardware-software integration to improve system performance and reliability.	
ServiceNow Virtual Intern ServiceNow Virtual Internship	Jan 2026
- Completed a virtual internship focused on ServiceNow platform fundamentals, ITSM concepts, and workflow automation. - Gained hands-on experience with application development, incident management, and business process automation using ServiceNow.	
Industrial IoT Intern Design Edge, Coimbatore	Jul 2026
- Developed IoT applications using ESP32 by integrating sensors for real-time monitoring and automation. - Tested, debugged, and optimized IoT systems to ensure reliable hardware-software communication.	

PROJECTS

IoT-Based LPG Gas Leakage Detection System

- Designed and developed an IoT-based gas leakage detection system with real-time monitoring and automatic SMS alerts.
- Implemented alarm activation and relay-based power shutdown to improve safety during gas leak incidents.

Game-Based Learning Application for Core ECE Concepts | Python

- Developed a Python-based educational game for learning core ECE concepts through quizzes and circuit-based activities.
- Implemented quiz modules and game logic to create an interactive learning experience.

CERTIFICATIONS

Python Programming – PrepInsta • Microsoft Azure AI Fundamentals • IBM AI Foundations • NPTEL – Machine Learning
• Servicenow
